

Floral bouquet

Create a beautiful bouquet with these printable flowers! Once you've printed out this page ask a grown up to help you cut along the dotted lines. Next grab some straws, (we prefer paper straws) then use tape on the reverse to stick the flowers on to them!

f i p t

Here's some we made!

Top tip!

No straws?
Why not use pipe cleaners,
card cut into strips
or even real twigs or
sticks from your
local park?!
